On the 1st of July, 1837, will be published at Washington, District of Columbia, and delivered simultaneously, in the principal cities of the United states, a new Monthly Magazine, under the above title, devoted to the ples of the Democratic party.

It has long been apparent to many of the re-flecting members of the Democratic party of the United States, that a periodical for the advocacy and diffusion of their political prin-ciples, similar to those in such active and in fluential operation in England, is a desideraturn, which it was very important to supply a periodical which should unite with the attractions of a sound and vigorous literature, a political character capable of giving efficient supporte the doctrines and measures of h t party, now maintained by a large majority of the people. Discussing the great question of policy before the country, expounding and advocating the Democratic doctrine through the most able pens that the party can furnis in articles of greater length, more condensed force, more claborate research, and more elevated tone than is possible for the newspape press, a Magazine of this character become an instrument of inappreciable value for the enlightenment and formation of public opinion, and for the support of the principles which it advocates. By these means, by thus explaining and defending the measures of the measures of the measures of the measures. great Democratic party, and by always furn-ishing to the public a clear and powerful commentary upon those complex questions of policy and party which so frequently distract the country, and upon which, imperfectly understood as they often are by friends, and mis-represented and distorted as they never fail to be by political opponents, it is of the utmost importance that the public should be fully and rightfully informed, it is hoped that the pe, is edical in question may be made to exert a beneficial, rational, and lasting influence on the public mind. Other considerations, which cannot be too

highly appreciated, will render the establish-ment and success of the proposed Magazine of very great importance.

In the mighty struggle of antagonist princi-

ples which is now going on in society, the Democratic Party of the United States stands committed to the World as the depository and exemplar of these cardinal doctrines of politi cal faith with which the cause of the People in every age and country is indentified. Chiefly from the want of a convenient means of concentrating the intellectual energies of its disciples, this party has hitherto been almost whelly unrepresented in the republic of let-ters, while the views and policy of its oppos-ing creeds are daily advocated, by the ablest and most commanding efforts of genius and

learning.
In the United States Magazine the atempt will be made to remove this repreach.

The present is the time peculiarly approprists for the commencement of such an union, after a conflict which tested to the utter-most its stability and its principles, have succeeded in retaining possession of the executive administration of the country. In the consequent comparative repose from political strife, the period is suspicious for organizing and calling to its aid a new and powerful ally of this character, interfering with none and cooperating with all.

ordinate with this main design of The Co-ordinate with this main design of The United States Magazine, no care nor cost will be spared to render it, in a literary point of view, honorable to the country, and fit to cope in vigor of rivalry with its European competitors. Viewing the English language as the noble heritage and common birthright of all who speak the fougue of Milton and Shakespeare, it will be the uniform object of its conductors to present only the finest productions in the various branches of literatuae. ductions in the various branches of literatuae, that can be procured; and to diffuse the bene-fit of correct models of taste and worthy exe-

Our political principles cannot be compromised, but our common literature it will be our common pride to cherish and ex-tend, with a liberality of feeling unbitssed by

partial or minor views.

As the United States Magazine is founded on the broadest basis which the means and influence of the Democratic-party in the United States can present, it is intended to reader it in every respect a thoroughly NATIONAL WORK, not merely designed for ephemeral interest and attraction, but to continue of permanent historical value. With this view a considerable portion of each number will be appropriated to the following subjects, in addition to the general features referred to

THERE IS HEALTH TO THE SICK! LD NOBLE'S AGAMEDIAN LOZENGE;

A NEVER FAILING CURE FOR Fever & Ague,

And unrivalled as a Tonic in all cases of Debility

Female Obstructions, Fevers, &c. Owing to the unprincipled venulity of a certain set of pretenders to skill, in the art of compounding medicine with reference to the cure of human ills, the country has been deluged with nostrums, to cure this and that disane-one "tonic mixture" and another "pan cea," and "catholicon," &c. &c., ad infini tum, until it has become necessary for men o science, and those who wish to save the unfor tunate from imposition and death, to lend their aid in stopping the ravages of quackery and presumption. Therefore, this Lozongo was invented by an experienced Chemist and Physician in accordance with the immutable principles of physilogical science as applica-ble to the pathology of human disease and oxpressly to meet the wants of EMIGRNATS and people of all places where the above diseases prevail, and is indisputably the best medicine ever before effered to the public for the cure of those diseases. Having more power than the Quinine, it has none of its danger to the constitution, as it prevents the formation of DISEASE IN THE LIVER, AGUE CAKES, &c. so often the consequence of the injudicious use of QUININE. It will never fail to oure the ague and all diseases of the constitution attendant upon it, when used according to the directions. There are twents four Lozenges and six Pills in each box. Price one dollar per box. The chespest medicine ever before offered in proportion to its virtues. Directions inside of the Box. B. G. NOBLE, General Agent,

CERTIFICATES. This may certify, that having been afflicted with Ague and Fever, in a most aggravated form, for more than twelve months, without any intermission, except for a few days, I was at length perfectly cured by the use of one box of Noble's Agamedian Lozenge, after having fried most of the prepared remedies with no effect, such as Quinine, Bark, and various comeffect, such as Quinine, Birk, and various com-prands. Such was my situation, previous to using the Lozenge, that I was wholly incapa-ble of doing any kind of labor, and rapidly on the docline. A few days' one of it, however, wrought so great a change, that I was able to commence work, which I have continued without interruption ever since, although many months have elapsed since. I would recom-mend this medicine to those afflicted with Fever and Ague, as a sure und effectual remedy for that disease. OBED TAYLOR. Solo, Michigan, December 5, 1835.

I certify, that I was cured of an inveterate Ague by the use of Noble's Agamedian Lu-zenge. I would recommend it as a radical and permanent remedy for that disease.

N. POWELL. Dexter Village, Michigan, Feb. 24, 1836.

I can cheerfully testify to the superior efficacy of Noble's Agamedian Lozenge, as a remedy for Fever and Ague, from its use in my own dy for Fever and Ague, from its use in my own case, having been perfectly cured of Fever and Ague by it, after having made a trial of various other medicines with no effect.

Messrs. O. & S. Crosby & Co. Gentlemen. Ifeel happy in having it in my power to state to you the good effect of your Vegetable Rheumatic Drops, or sure remedy, had in restoring me from a sick bed. In the month of April last, was so afflicted with the Inflamatory Rheumatism that I was confined to my bed. tirely unable to help myself. I could not so much as turn myself in bed, and it was with the fgreatest difficulty that I could be moved in it I tried various kinds of medicine, and was at-tended by a skillful physician, but all to no effeet, until I made use of your Sure Remedy, which when applied as directed, gave me immediate relief. Within a short time after I commenced using it, I was able to fide out and at-tend my usual business. I can cheerfully recommend it to the public as being a good cine for Rhoumatic complaints, as it has been a number of months and I have had no return AARON HOLDRIDGE,

Columbus, Ohio, Nov. 1st, 1832. Messrs Crosby's & Co. I was afflicted for

everal mouths with the Rheumatism and having used every remedy recommended by the most eminent physicians within my reach without success, I at length procured a bottle of your Rheumatic Drops or Sure Remedy, and made the application as directed, and before I had used one half of it, a perfect cure was effected; and to my knowledge the same bottle cured two of my neighbors. It is now about two-years since I used your medicine, and I have not been troubled with the Rheumatism mce. RODNEY SPALD NG. Marion, Marion Co. O. May 20, 1832.

DR. JUDKIN'S SPECIFIC ONTMENT

WHIS valuable medicine is celebrated for curing White Swellings of every description Sore Legs and Ulcers of long standing. Glandular Tumors, Felons, or what some people know by the name of Catarrhs; Rheumatic pains, and Bruises; Tetters of all kinds; Chil-qlains, or parts affected by frost; it is also one

of the best remedies for Scalds and Burns.
For glandular swellings, it is superior to any medicine yet known. It is much safer than mercurial applications, (as it does not contain the smallest atom of that mineral,) because it does not lay the patient liable to injury from exposure to cold.

It cares the worst felons or whitlows on an application of forty-eight hours.

Rheumatisms which have stood so long as

to become a systematic disdorer, require medi-oine to be taken inwardly to remove them'entirely. But in most cases by applying this ointment externally, as directed, it will give relief
